# More Than a Phone System Simplicity-Affordability-Flexibility

## PBX - Video Conferencing - Live Chat - Connect Facebook & Text

With the COVID-19 outbreak and employees working remotely, many are juggling work and personal info on their own devices. This could result in poor customer service, potential data breaches and less employee productivity.

### *What if you could boost customer service and make it easier for staff – all while saving money?*

With 3CX, you'll have a full-featured phone system in the palm of your hand! In addition to using your office phone line, you'll have access to call and text queues, web conferencing, chat and more. You can also integrate live chat from your website and Facebook. All these features are remote-friendly so your team can use them from anywhere via one 3CX app. It's also open-platform and fully compatible with popular IP phones and SIP trunks. 3CX scales with your business and remains cost effective!

Blue Chip can design a 3CX System customized to reduce costs and complexity of multiple systems while increasing security. We will take care of everything like call flow design, network integration application integration and moving phone services to a less expensive carrier.

If you are working from home, welcoming users back to the office or a combination, we can provide a cost effective solution for you.

## Empower your Team!

- Use office extensions on iOS & Android apps for remote work.
- Empower your team. Keep in touch via video, chat & phone.
- App-free web conferencing. Meet with clients face-to-face.
- Live chat on your website. Let visitors get in touch, easily!

## One system - All requests

- Manage calls efficiently. Advanced queue features.
- Connect Facebook and SMS. Answer customer messages from 3CX.
- Live chat with website visitors. Easily switch to a call or video.
- CRM integration. Track all client info synced and up-to-date.

## BIG Savings

- Save up to 80% on monthly phone system fees for unlimited users!
- Save thousands on calls with your choice of SIP trunk.

*Complete functionality in iOS,  
Android or Web browser*

## Savings and Benefits of Remote Working

### ➤ **Employees are Happier and More Productive**

Staying at home reduces stress levels and the lack of commute makes it easier to maintain a positive work-life balance. That doesn't mean productivity suffers however! *In fact 91% of Remote Workers say they get more done at home than in the office.*

### ➤ **Reduces Cost**

*Employees based elsewhere?* Great! Your overhead will drop significantly and your employees will save on their commute.

### ➤ **Boosts Profit**

The Wall Street Journal found that companies that allowed remote working at least 3 times a month were more likely to report *revenue growth* across a 12 month period.

### ➤ **Attracts Talent**

Remote working forms a key element of your business' emotional salary. Around 80% of U.S workers say they would turn down a job that didn't offer remote working! The bottom line: don't underestimate its sway on applicants during the recruitment process.
